

REMARKS

In accordance with the Examiner interview of September 13, 2007 between Angelo J. Gaz of Blakely Sokoloff Taylor & Zafman and Examiner Behzad Peikari, Applicants submit the attached proposed amended claims. Applicants appreciate Examiner Peikari taking the time to discuss the claims during the interview and reaching an agreement of possibly allowable subject matter. Amendments to independent claims 1, 9, 17 and 27 are supported at least at paragraphs 32-34 of the application and by Block 620 of Figure 6 of the application. Applicants believe that the proposed amended claims overcome the references previously cited by the Patent Office.
